Personal Profile

An insightful student studying Games Technology (BSc Hons) at the University of Bournemouth seeking a placement position in programming. I am currently working on a personal project in the form of a game made in the Unity engine with scripting in C#. I have a driven work ethic and will always attempt to complete any task to the highest standard within a given time frame.

Key Skills

- **Programming Languages:** Familiar with **C#, C++, SQL**– also some experience with **HTML/CSS** web programming.
- **Modelling:** Experience with Autodesk's **Maya**, Pixologic's **Zbrush** and **Unreal Engine 4** – more skilled with level design and hard modelling however, some experience with organic modelling.
- **Game Designs:** I have made several games using different graphical APIs such as **Allegro** and **OpenGL**. In addition to this I also have experience making games in the **Unity** engine using C# programming.
- Can assemble a PC from individual components and set up a basic home network with wireless functionality.
- **Applications:** Knowledgeable about **MS office**, most operating systems and basic knowledge of **Photoshop**.
- **Interpersonal Skills:** Ability to communicate effectively in a team on a personal and professional level.
- **Organisational Skills:** Developed through years of education and through deadline orientated situations.

Education and Qualifications

Sales Assistant/Chef Assistant**

- Employed for over two years with two different owners
- Serving customers and waiting on tables
- Assisting the chef with making meals and keeping organised during busy periods
- Help on washing up and keeping the kitchen organised during peak times really help me understand how to keep organised and relaxed whilst in a stressful environment

Interests

During my spare time I enjoy playing video games, my favourite genre would have to be RPGs/FPS and occasionally MMOs, whenever possible I like to play with big groups of people.

I participate in events such as Game Jams/conventions to further my development skills plus organising groups of people has given me a lot of experience in leadership and how to take initiative.

Travelling is also one of my passions – whenever there is an opportunity to travel somewhere I haven't seen before I always try to go.
